DESCRIPTION

A heavy duty non-butyl cleaner that absorbs grease, oil, and protein based soils better than butyl-based products. Recommended on all food processing equipment. Concentrated and very economical to use. Non-flammable, non-toxic, non-corrosive and contains no solvents. It is excellent for use in automatic scrubbers.

DIRECTIONS

FOR GENERAL CLEANING OF FLOORS, WALLS, and FIXTURES: Dilute concentrate 2 to 4 ounces per gallon of warm water and apply with a mop, sprayer or sponge. Allow to stand a few moments and wipe off or rinse clean with water.

FOR FOOD PROCESSING AREAS and EQUIPMENT: Dilute concentrate 12 to 16 ounces per gallon of warm water. Mop, spray or sponge onto surface and allow to stand a few moments. Surfaces that come directly in contact with food require a potable water rinse; otherwise rinsing is not usually necessary.

FOR HEAVY DUTY DEGREASING and INDUSTRIAL CLEANING: Dilute concentrate 32 ounces per gallon of warm water. Mop, spray or sponge onto surface and allow to stand at least 5 minutes. Scrub or brush thoroughly and rinse with clean water.

The above directions are flexible rather than specific. Generally, a more dilute solution can be used, while for extreme conditions a less dilute solution may be needed.

This product meets the maximum content requirements for Volatile Organic Compounds (VOCs) as established by state and Federal regulations.
